SERVICES

Rhinoplasty

Rhinoplasty can change the size, shape or proportions of your nose. It may be done to repair deformities from an injury, correct a birth defect or improve some breathing difficulties

Face Lift Surgery

A face-lift is a cosmetic surgical procedure to create a younger look in the face. The procedure can reduce sagging skin. It can also help smooth folds of skin on the cheeks and jawline

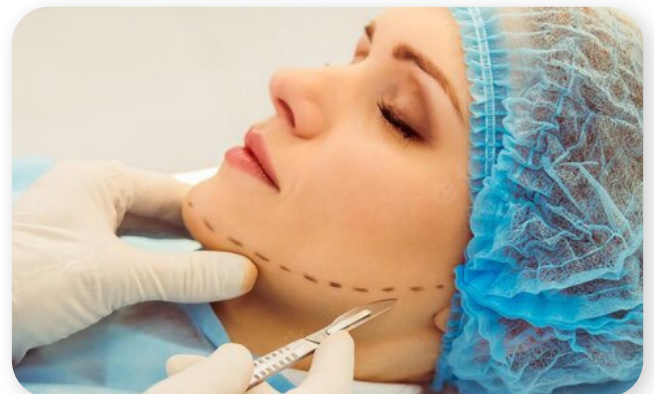

Brow lift Surgery

A brow lift is a cosmetic procedure to reposition your forehead, reduce wrinkles and make you look more youthful. If time and gravity have altered your forehead to make you look serious, angry or tired, you might want to consider a brow lift. A brow lift is a permanent procedure

Cheek lift Surgery

A cheek lift reduces sagging skin and also helps smooth the nasolabial folds (smile lines) around the mouth area. Repositioning the soft tissue of the cheek to a higher position during the procedure also helps lessen the hollowness below the lower eyelid. The surgery offers a more youthful and refreshed appearance

SERVICES

Tummy tuck

Its a procedure that flattens your abdomen by removing extra fat and skin and tightening muscles in your abdominal wall. This surgical procedure is also known as a tummy tuck.

Lipo 360

Lipo 360 is a liposuction procedure that encompasses all areas of the midsection, covering 360 degrees around. The corresponding areas that are able to undergo treatment include the abdominals, both upper and lower.

Mummy Makeover

The mommy makeover is one of today's most popular combination plastic surgery techniques, designed specifically to address breast implants, reduction and augmentation

Breast Implants

A breast implant is a prosthesis used to change the size, shape, and contour of a person's breast. In reconstructive plastic surgery, breast implants can be placed to restore a natural looking breast

SERVICES

BBL

Brazilian butt lift (BBL) is a surgery where a doctor transfers fat from your abdomen, hips, lower back, or thighs to your buttocks. The result is more of an hourglass-shaped figure, with larger buttocks.

Labiaplasty

Labiaplasty is a plastic surgery procedure for altering the labia minora and the labia majora, the folds of skin surrounding the human vulva

Blepharoplasty

Blepharoplasty is the plastic surgery operation for correcting defects, deformities, and disfigurements of the eyelids; and for aesthetically modifying the eye region of the face.
